EXPERIENCE

Patient Technology Technician, UCHealth, October 2023-December 2025
Colorado Springs

- Clinical and Technical Support: Provided real-time clinical and technical support serving as the primary contact, ensuring smooth operations across multiple hospital departments, working in conjunction with an offsite Virtual Health Center (VHC).
- Acted as a primary liaison between nursing staff, VHC teams, and IT, quickly troubleshooting and resolving clinical and technical issues.
- Maintained and serviced essential medical and non-medical equipment, including telemetry boxes, capnography machines, medical scanners, and computers, ensuring operational readiness and compliance with safety standards.
- Performed routine equipment cleaning, visual inspections, and managed inventory levels for clinical units, maintaining accurate logs of service schedules and supply usage, while escalating complex issues to Biomed or IT through detailed ticketing.
- Patient Interaction: Developed strong communication and care through direct interaction with patients. Supported other clinical staff/ visitors with technical and operational needs, providing genuine customer service under time sensitive conditions. Contributing to a well-supported work environment.

- Demonstrated critical thinking and independence under minimal supervision, supporting high-quality patient care in fast-paced environments.

Fine Dining Server, The Broadmoor, December 2022-October 2023
Colorado Springs

- Hospitality Operation and Guest Service: Delivered high-end service in luxury banquet and fine dining environments, ensuring excellent guest experience during large scale events, conferences and private functions.
- Performance Under Pressure: Consistently performed in high-pressure/ time sensitive environments requiring keen attention to detail, multitasking, and on the fly adaptability. Recognized by leaders for reliability, attentiveness, and the ability to maintain service excellence during complex events.
- Team Coordination and Workflow Management: Collaborated with and organized teams of servers, bartenders, culinary staff, and event coordinators to support seamless service execution. Communicated effectively to anticipate service needs, adjust workflows in real time, and maintain the operation efficiency while under time sensitive events.
- Proactively addressed guest needs and concerns with discretion and professionalism, resolving issues efficiently to preserve service quality and guest satisfaction.
- Event Setup and Operational Execution: Prepared and configured event spaces according to detailed specifications, including room preparation, table settings, seating arrangements and decor. Ensured accuracy, timeliness and adherence to service standards and policy procedures prior to guest arrival.

Server, Springs Orleans, January 2022-December 2022
Colorado Springs, Colorado

- Ensured restaurant cleanliness and organization, enhancing guest experiences through meticulous attention to detail.
- Promptly greeted and seated customers, maintaining a warm and efficient welcome process.
- Prepared dining tables and served meals following established standards for quality service.
- Conducted thorough visual inspections of plates, verifying portion and presentation accuracy.
- Managed food delivery logistics, overseeing setup and restocking for each shift.
- Sanitized storage areas, equipment, utensils, and tools consistently to maintain hygiene.
- Verified food quality through rigorous checks to meet stringent restaurant standards.
- Trained new servers on menu items and service protocols to boost team efficiency.
